WELCOME

Invitation to the 5th international congress on research of rare and orphan diseases - RE(ACT) Congress AMERICA 2019

It is a pleasure to invite your Organization/Company/Institution to sponsor the and/or exhibit at the RE(ACT) Congress AMERICA 2019 - 5th International Congress on Research of Rare and Orphan Diseases to be held at Sheraton Centre Toronto Hotel - Toronto, Canada, from 8th to 10th May 2019, a superb setting for stimulating learning, exchanges and networking.

The conference sessions will explore issues and cutting-edge technologies that affect many adult and pediatric conditions. Our aim is to promote research on rare and orphan diseases among the general public, industry and policymakers as well as to provide a forum for researchers to meet and pool their knowledge. The underlying objective is to tackle the key issues that need to be addressed if we are to see new and promising therapies and treatments rapidly delivered to patients all around the world. This will also help to further understanding of other more common diseases and to encourage clear insights from the scientific community in university and industry.

The congress will bring together world leaders and young scientist from stem cell, cell biology, gene therapy, human genetic, or therapeutic applications to present cutting edge research, to discuss results and to exchange ideas. Moreover, many patients and patient organization, which are committed in research, will be present to share their experience.

The 5th edition of the Congress will be co-organized in collaboration with the Office of Rare Diseases Research (ORDR) within the National Center for Advancing Translational Sciences (NCATS) at the National Institutes of Health (NIH), in partnership with the Canadian Organization for Rare Disorders (CORD), the Canadian Institutes of Health (CIHR), Genome Canada and the Children's Hospital of Eastern Ontario (CHEO).

We are counting on your presence to make this meeting a great event.

RE(ACT) CONGRESS 2018

ABOUT THE CONGRESS

In its four editions, the RE(ACT) Congress brought together almost 1,500 people to discuss research into rare diseases and the development of active substances to treat them. What made the congress unique was the interdisciplinary collaboration. Scientists from different disciplines – stem cell researchers, geneticists, biochemists, clinicians and pharmacists – exchanged information with patient organizations.

The congress goals are:

- Promote research on rare and orphan diseases among the general public, industry and policy makers
- Bring together researchers and their knowledge
- Helping the understanding of other more common diseases
- Encourage clear insights positions identifiable from the scientific community in university and industry

“Congratulations for a very successful and useful conference! That was a challenge and it seems that you have succeeded. I am happy that EURORDIS could be by your side for this first.”

Yann Le Cam, CEO of EURORDIS, Paris, France

“... it was a pleasure to partake in this fantastic meeting. Congratulations to you for putting together this event, and for your relentless efforts towards fostering research on rare diseases.”

Professor Didier Trono, School of Life Sciences, Ecole Polytechnique Fédérale de Lausanne, Switzerland.

“It was a pleasure to have a taste of an interesting meeting with an original and worth developing format ! ”

Professor Alain Fischer, Director of the Pediatric Hematology and immunology Department and Director of the Research Institute of Genetic Diseases (Imagine), Necker University Hospital, Paris, France

“It was such a pleasure to participate at the RE(ACT) Congress. You did a wonderful job and the meeting was a great success.”

Dr Bernd Wollnik, E-RARE granted project coordinator; Center for Molecular Medicine Cologne; University Hospital of Cologne Department of Medicine, Germany

“Congratulations the meeting was very well organized, and I believe it was the right forum to share our research and concerns about funding. And I was happy to meet a lot of known and new people.”

Professor Gert Matthijs, Laboratory for Molecular Diagnosis, KU Leuven University, Belgium

CONNECTIONS TO TORONTO

By Air

Toronto is served by two airports. Toronto Pearson International Airport, managed by the Greater Toronto Airport Authority, is Canada's principal airport with travel connections to every continent and ranks among the top 30 world airports in terms of passenger traffic and aircraft movements. There are over 76 scheduled and charter airlines currently serving Toronto Pearson International Airport and air carriers provide non-stop service to numerous destinations in Canada, the United States and the world.

Air Canada, Canada's flagship carrier and a founding member of the Star Alliance, relies on Pearson International Airport as its major Canadian hub with a wide variety of domestic, U.S. and international connections.

Billy Bishop Toronto City Airport (formerly Toronto City Centre Airport) is one of the most convenient urban airports in the world. It is located on Toronto Island, minutes from the downtown core with links to the city by a short ferry ride or pedestrian tunnel, and is served by both Porter Airlines and Air Canada. Porter provides a unique and personal flying experience with air connections to regional Canadian and U.S. destinations, including Ottawa, Montreal, Quebec City, Halifax, New York City (Newark) and Chicago. Air Canada offers air access every business day, between Montreal and Billy Bishop Toronto City Airport (in addition to its connections between Montreal and Toronto Pearson International airport).

By Rail

VIA Rail and AMTRAK bring visitors into the heart of the city each day. Toronto's Union Station is centrally located downtown and connects to the subway by underground tunnel.

Niagara GO Train is a summer weekend excursion train from Union Station to Niagara Falls with stops in Port Credit, Oakville, Burlington, St. Catharines and Niagara Falls. The ride takes approximately 2 hours from Union station to the Niagara Falls station.

By Road

Several highways, including Highways 2, 401, 407 and the Queen Elizabeth Way, link surrounding cities to Toronto. The nearest Canada-U.S. border crossings are at Niagara Falls, Fort Erie and Windsor.

CONFERENCE VENUE

SHERATON CENTRE TORONTO HOTEL

The RE(ACT) Congress America 2019 is held at the Sheraton Centre Toronto Hotel. In the heart of downtown's business and entertainment districts, the Sheraton Centre Toronto Hotel is connected to PATH, a 16-mile underground network of shops and services. It is steps from the Eaton Centre shopping mall and Toronto's convention centre.

Experience a fresh kind of classic. A 2.5-acre waterfall garden atrium highlights our new lobby. Newly renovated ballrooms and meeting spaces total more than 120,000 square feet. Savour some of the city's best burgers and comfort food at BnB. Each of our 1,372 modern guest rooms offer the plush comfort of the Sheraton Signature Sleep Experience. Sheraton Club Rooms offer another level of service with an array of upgraded amenities and access to the stylish 43rd-floor Sheraton Club Lounge.

The Sponsor is encouraged to provide dinner/finger food and an evening program for this session.

Satellite Program

The session program, including title, topics and lectures, must be submitted to the Conference Secretariat for approval. The goal is to ensure that the program is not too product orientated and that there is no overlapping of topics between various symposia. Once the program of a symposium is approved, it cannot be modified (except with approval from the Conference Secretariat). The organisers reserve the right to change the date and time of the symposia.

Symposium Poster

Sponsors may present a certain number of posters to announce their satellite depending on their sponsorship level (see benefit overview in the previous section) on the day their session takes place. It is the responsibility of the sponsor to produce posters and organise easels or similar. Poster layout and placement must be agreed upon by the Conference Secretariat (see Terms & Conditions for details).

Registration & Speaker Travel Arrangements

All speakers, as well as all participants and invited guests who wish to attend the sessions, must be registered as active participants. The sponsor is also responsible for the registration, invitation and travel arrangements of invited speakers and chair-persons that have specifically been invited to participate in the sponsor's scientific session – even though they might also be invited by the organisers.

Rooms & Services

- All rooms will be provided with:
- Setup in theatre style
- Lectern with microphone and presentation computer
- Chairperson's desk with two fixed microphones
- 1 wireless microphone
- 2 fixed microphones for the audience
- Front projection screen
- Video projector
- Room audio and light

A technician will be available during your symposium.

Speaker's Presentations

To avoid unexpected technical problems, sponsors are requested to make sure their speakers use the Speaker Preview Room to upload their presentation, as the lectern laptop provided is not accessible directly. This should be done at least 180 min prior to the start of the session. Detailed instructions such as Speaker Preview Room opening hours will be provided at a later stage. We do not advise speakers using their own laptops, if speakers wish to use their own laptops, it is the responsibility of the sponsor organising the session.

THE RE(ACT) COMMUNITY

The aim of the RE(ACT) Community (react-community.org) is to strengthen the synergies between people involved in the rare and orphan diseases research in order to awake the general public consciousness about the achievements and goals of these researches, build international relationships and collaborations within researchers and intensify exchanges between researchers and others stakeholders (such as Academic Institutions, Centers of Expertise, Pharmaceutical industries, Patient organizations, policy makers, etc.).

To create a unique world-wide platform fostering exchanges and collaboration on similar or new projects, identifying research projects, transferring of know-how, finding expertise, discussing with key opinion leaders and optimizing synergies between scientists and patient advocates with policy makers and companies.

The RE(ACT) Community is open to everybody, this include other associations/societies, pharmaceutical industries, patient organizations, students, supporters and friends, banks, private equity funds, etc.

The community is counting already about 500 members.

The organization of the international congress on research of rare and orphan diseases (which occurs every two years) is one of the main activities of the RE(ACT) Community.

The community will provide grants, fellowships and awards.

The logo for the RE(ACT) Community. The word "RE(ACT)" is written in a large, bold, black, sans-serif font. The "A" is enclosed in a red parenthesis. Below "RE(ACT)", the word "Community" is written in a smaller, red, lowercase, sans-serif font with wide letter spacing.
